- Customisable pre-sets
- Headset hanger is included

Features

Health Benefits

Studies suggest that alternating from sitting to standing can provide multiple health benefits and boost productivity. Get one today and start enjoying various health benefits by standing more and sitting less.

Huge Full-Surface Mousepad

The entire surface of the Arena Moto desk is covered with an interchangeable microfiber mousepad on top of a tough MDF board. The mousepad is specially designed to custom fit the curved 14 sq. ft. (1.31 sq. meters) Arena Moto desk with an anti-slip rubber bottom to ensure that it stays in place.

Water-resistant & Easy to Clean

The full-surface mousepad is also water resistant, making clean up easy and simple. If you wish to have a more thorough cleaning, just throw in your machine washer at a low temperature & air dry afterwards.

Cable Management

The Arena has 3 cut-outs on top of the surface leading to a mesh basket that is tightly attached to the underside of the desk, making it easy to manage all your cables.

Monitor Attachment

The 3 cutouts in the mousepad & MDF board aren't only for cable management, but also to attach monitors and is spacious enough to hold 2 large-sized monitors.

Customizable pre-sets

With the 4 numbered buttons on the display, you can save the different heights you wish the desks to be set to. Holding down that button will raise or lower the desk to that exact height.

Twin Motors

The double motors of the desk enable higher lift capacities while simultaneously being the faster, more sturdy option. It's also more pleasing visually due to the motor placement in the legs and the sleek look of the frame because of it.

Crossbar for added stability

To address any form of instability due to the possible height of the desk, a crossbar has been added between the top of the two legs. This is not found in most

mechanical desks, but since a gaming setup in a lot of cases has heavier objects on top of it. It is essential for a stable and reliable gaming experience.

Included Headset Hanger

A headset hanger is included with the Arena Moto. It can be attached underneath the desk on the right or left side depending on where the display is placed
