Short text:

The Sfera is designed to be easy to use yet with high-quality condenser capsules so the audio is crisp & clear. It is tailored to be the optimal fundamental streaming microphone that is ideal for gaming, online calls, and podcasts.

- Plug & Play easy to use
- Boom arm attachable
- Pick-up patterns: Cardioid

Long text:

The Sfera is designed to be easy to use yet with high-quality condenser capsules so the audio is crisp & clear. It is tailored to be the optimal fundamental streaming microphone that is ideal for gaming, online calls, and podcasts.

- Plug & Play easy to use
- Boom arm attachable
- Pick-up patterns: Cardioid
- Headphone jack
- Mute button

Features

Plug & Play

The simplistic design makes it easy to use. With the Plug & Play function, the Sfera is ready to go by plugging in the Custom USB cable to your PC or Mac. All you need to do is adjust the volume dial on the Sfera to find the right settings for your headphones.

Boom Arm Mount

No room on your desk for the Sfera? Attach it to a boom arm with the 5/8-inch thread mount so you can have more room on your desk.

Mute Function

Need to quickly mute your microphone? Simply press the Mute Button to immediately mute the microphone so you don't have to fumble in your audio settings.

Pick-up Pattern: Cardioid

The Cardioid pick-up pattern is ideal for individual use, picking up the audio from the front of the microphone and not the back. This enhances the recorded audio by excluding any irrelevant noises behind the microphone.

Cable Management

If you have a full streaming setup, cables can run everywhere if unorganized. The Sfera has a cable management clip attached so the cable stays tightly connected to the microphone's stand.

Heavy Base

The Sfera has a strong & heavy base to keep it stable where ever you place it. The cast metal is 0.4kg (0.88 lbs) with a coated rubber bottom to ensure its placement on your desk.

Microphone Specifications

Power Required / Consumption	5V 500mA (USB)
