Looking for a new mouse that won't weight you down? The Arozzi Favo 2 Ultra Light Gaming Mouse will raise your game to a new level! Built for speed, control and comfort with a weight of only 74 g, the Arozzi Favo 2 is one of the lightest gaming mouses on the market!

The Arozzi Favo 2 Gaming mouse is equipped with Pixart 3389 sensor, Omron 20M switches and 6 buttons. The Favo 2 comes also with customizable RGB lightning, both in the bottom panel and the logo on the back, easily controlled directly on the mouse or with our software.

- Extremely light weight
- Light, ultra-flexible braided cable
- Six buttons
- 200~16000 Dpi (Adjustable)
- Omron switches
- RGB bottom panel

Features

Flat surface with high arc

If you prefer a flat surface with a higher arch, this shape is more suited to you.

Light & flexible braided cable

The light flexible Paracord Cable will give the mouse an almost wireless feel, especially when used with our Ancora Mouse Cable Holder. The cord is 1.8m long.

Six buttons

For such a light weight mouse, it still holds six buttons. Two thumb buttons, Left & right click as well as the clickable scroll wheel and the DPI button.

Omron 20M switches

The Favo 2 runs with Omron 20M switches, which is a very popular type of microswitches used for pointing devices, well known for their durability, tested up to 20 million times.

Pixart 3389 Sensor

The Favo 2 Sensor provides you with a best in class gaming experience with the enhanced features of high speed, high resolution, high accuracy and selectable lift detection height.

RGB lights

Along the bottom side of the mouse, runs an RGB panel as well as the RGB logo at the back of the mouse. These can be changed in color, pulse and intensity for your own personal taste (software required).

Adaptable Software

In the Favo 2 Software you can customize the mouse in various ways to make it fit your needs perfectly. To control your RGB, DPI, Profile settings and more.
