Short text:

The Chair Mat is designed with versatility in mind to keep your office or setup looking fresh and modern but also match the style you're going for. Whether you prefer a more vibrant design that matches RGB style setups – or something more discreet for a neutral kind of setting, we have what you need!

- Anti-Slip rubber bottom
- Dampens the noise of chair movements
- Microfiber with perimeter stitching
- Protects your floor from scratches

Features

Noise Dampening

The microfiber material dampens the noise made from chair casters rolling around on hard surface floors. This is excellent for those who do not want to disturb neighbors or those who live in apartments with neighbors living below.

Easy to Clean

As the Zona Floor Pad starts to build up dust & scrap simply throw it in the washing machine. All you need is a mild amount of laundry detergent at the lowest temperature & let air dry to have it looking good as new. Another cleaning alternative is using a standard vacuum cleaner for a quick cleaning.

Protect Your Floor & Anti-Slip

The Floor Mat material is also designed to protect your floor from scratches if you have flooring that is susceptible to damage. On the bottom is anti-slip rubber coating to ensure the Floor Mat stays in the same place while you are moving around.
