

LUMBAR SUPPORT PILLOW

The Arozzi memory foam lumbar support pillow relieves backache and fatigue after long periods sitting down working or gaming. The lumbar support pillow is anatomically shaped to contour to the natural curve of your spine, giving you more support than ordinary back cushions.

Since no two backs are alike, the memory foam will shape itself after the individual and suit you perfectly. The pillow is universal and will work for any office- or gaming chair.

There are two versions of the pillow available to best suit different chair models: one with vertical straps, ideal for our Torretta and Avanti chairs, and one with a horizontal strap that fits perfectly with our Vernazza model.

Easy to put on and off and to move between chairs
