Features

Ergonomic Design

The Vernazza SoftPU™ is developed with Arozzi's signature ergonomic design making it easier on your back and posture for longer periods of use. It is equipped with 2 memory foam pillows: a lumbar pillow to support your back & a headrest pillow to support your neck and head.

Go Big

The Vernazza SoftPU™ is one of Arozzi's bigger chairs with a weight capacity of 145kg (320 lbs.) and a spacious hugging backrest. The gas lift has additional height added to it making it one of Arozzi's highest chairs. The seat also has an open design which means you can enjoy the full width comfortably.

Aluminum Base

The wheelbase is made of aluminum, making it extremely durable but also giving it a clean and metallic look.

SoftPU™

The SoftPU™ is a high-end synthetic leather that is exceptionally easy to clean, saving you time and effort. Its smooth surface ensures that spills and stains can be swiftly wiped away, keeping your chair looking pristine effortlessly.

Durability is at the heart of SoftPU™. Crafted to withstand the tests of time, it resists wear and tear, making it an ideal choice for both residential and commercial settings. Invest in furniture that not only radiates sophistication but also stands strong against everyday life.

Functionality

Adjustable Height

You can adjust the height of the seat using the handle. Find the perfect position for you!

Adjustable Backrest

Working hard and need a rest? Recline the backrest at 4° lockable increments. Find the right angle for you that compliments your body and posture.

Rocking Function

The chair can be locked in a fixed upright position or can be unlocked to freely tilt back and forth in a rocking motion up to 12°. Use the adjustment wheel to set the desired resistance.

Lock-Tilt Function

Like your chair leaned back a few degrees? The locking tilt function allows you to not only rock back the seat & backrest but also lock it in a position that fits you.

3D Armrests

The padded armrests are not only able move up & down. They can slide forwards & backwards, and rotate in & out. For those who want to find the best position for the armrests this 3-dimensional style is one of our most alterable.
