## Short text:

The Vernazza XL is the biggest chair Arozzi has to offer with a weight capacity of 170kg (375lbs.) and the most spacious backrest and seat. The Supersoft™ material is another take on the popular Vernazza series, and has its own unique velvety texture. Just like the other chairs in the Soft Fabric™ series, it's a very breathable material, making it perfect for long periods of use. The Supersoft™ is also fluid repellent, which is a nice new feature.

- Supersoft™ - Smooth yet durable furniture fabric
- Soft neck and lumbar pillow made with memory foam
- Adjustable height gas-spring that supports up to 170kg/ 375 lbs

## **Features**

### **Ergonomic Design**

The Vernazza XL Supersoft™ is developed with Arozzi's signature ergonomic design making it easier on your back and posture for longer periods of use. It is equipped with 2 memory foam pillows: a lumbar pillow to support your back & a headrest pillow to support your neck and head.

### **Go Big**

The Vernazza XL is the biggest chair Arozzi has to offer with a weight capacity of 170kg (375lbs.) and the most spacious backrest and seat. This is the perfect choice for our larger and taller individuals or the ones that just enjoy the extra space.

### **Aluminum Base**

The wheelbase is made of aluminum, making it extremely durable but also giving it a clean and metallic look.

### **Supersoft™**

The Supersoft™ is a type of microfiber fabric made with very fine synthetic fibers. Because the fibers are so small, the fabric is much denser, which means that less dust or other allergens can sink into the fabric, which in turn makes your furniture more allergy-friendly.

Another advantage of the dense fabric is that liquid stays on top of the surface instead of immediately penetrating the fibers, which gives you some time to clean up the liquid before it stains. The material also holds its color well and will look fresh and new longer than many other fabrics.

### **Memory Foam - Neck & Lumbar Pillow**

The memory foam in the pillows will take your comfort experience to the next level. The pillows quickly form themselves after the user, making it extremely comfortable with no cost to the support your body needs for long hours of work or play.

## **Functionality**

### **Adjustable Height**

You can adjust the height of the seat using the handle. Find the perfect position for you!

### **Adjustable Backrest**

Working hard and need a rest? Recline the backrest at 4° lockable increments. Find the right angle for you that compliments your body and posture.

## Rocking Function

The chair can be locked in a fixed upright position or can be unlocked to freely tilt back and forth in a rocking motion up to 12°. Use the adjustment wheel to set the desired resistance.

## Lock-Tilt Function

Like your chair leaned back a few degrees? The locking tilt function allows you to not only rock back the seat & backrest but also lock it in a position that fits you.

## 4D Armrests

The armrests are adjustable in 4 dimensions, moving with an easy push of a few buttons. With the increased adjustability, your forearms and elbows get the support and comfort while you are working or playing hard during long periods.
