Description

Introducing Arozzi's 32-inch QHD gaming monitor — a bold step up in size and resolution for gamers and content creators who want more screen without sacrificing speed.

The Arozzi Nova 32" features a crisp IPS panel with Quad HD resolution, offering sharp details, vibrant colors, and excellent viewing angles. Its 180Hz refresh rate and 1ms response time ensure smooth motion and responsive gameplay, whether you're battling online or exploring open-world titles. A great fit for immersive solo gaming and creative workflows. Available in multiple color options to match your setup.

- IPS Panel
- 180Hz Refresh rate
- 2560 x 1440 QHD-resolution
- 16:9 aspect ratio
- 1ms MPRT Response time
- Adaptive Sync support
- HDR10 with 300 nits Peak brightness
- Wide variety of color options
- Display finish: Matte
- Multiple ports for use with both PC and consoles
- Built in speakers (2x3W)
- Flicker-free technology
- Low blue light mode
- Vesa ready - 75x75mm (100x100mm with included adapter)

- Wall mountable: Yes
- HDMI: 2x
- DisplayPort: 1x
- USB: 1x (Firmware update)
- Viewing angle: 178°/178°
- Energy efficiency rating: G
- 3 Year warranty

Features

Enhanced Connectivity

Simplify your setup with versatile connectivity options, featuring DisplayPort and HDMI inputs to connect both PCs and consoles simultaneously without having to rewire when switching gaming devices.

Sleek and efficient

Featuring a slim, bezel-less design, the Arozzi Nova not only saves space but also offers an immersive viewing experience. There's also an RGB ring on the back of the monitor, making the Arozzi Nova look great in any space.

HDR Support

Enhancing the dynamic range of visuals with up to 300 nits peak brightness for more realistic, captivating gameplay and videos.

Stunning Visuals

Experience crystal-clear imagery with a QHD resolution (2560x1440) IPS panel, ensuring vibrant colors and sharp details from any viewing angle.

Adaptive Sync Technology

Enjoy tear-free and stutter-free gaming with support for adaptive sync, ensuring smooth and responsive visuals for any brand of GPU.

180Hz Refresh rate for Ultra-smooth Visuals

The Arozzi Nova features a lightning-fast 180Hz refresh rate. This dramatically reduces eye strain compared to traditional 60Hz monitors, ensuring a more comfortable and immersive gaming experience. With this level of performance, gamers of all skill levels will notice improved reaction times and gain a competitive edge.

1ms response time for seamless motion and clarity

Enjoy ultra-responsive gameplay with a blazing-fast 1ms MPRT response time. This keeps you fully immersed in fast-paced action, giving you a competitive edge. With near-instant reactions, you'll never miss a moment and can stay ahead of the competition.

Flicker-free technology

Flicker-free technology eliminates screen flickering at all brightness levels, minimizing eye strain for a more comfortable viewing experience. Traditional LCD screens flicker up to 200 times per second, which can cause fatigue even if it's not visible. Upgrade to a flicker-free monitor and give your eyes the relief they deserve.

Low Blue Light mode

Game comfortably for hours with the Low Blue Light mode, which reduces blue light emissions to minimize eye strain and enhance viewing comfort, day or night.
