Description:

The Arozzi Arena Nordico Sit/Stand Desk combines Scandinavian design with practical functionality, including electric height adjustment, smart cable management, and an adjustable desktop layout for an ergonomic workspace. The desk is designed to meet the demands of gamers, creators, and professional users alike who are looking for a stylish, ergonomic, and versatile setup.

Electric height adjustment: 71–115 cm with a powerful motor – easily switch between standing and sitting.

4 memory presets: Save your preferred positions.

LED display: Shows the current height in centimetres for precise ergonomic control.

Adjustable rear tabletop: 12 cm deep, adjustable 0 – 4,2 cm from the main surface using thumb screws. Ideal for monitors and cable management.

Metal cable baskets: Two included baskets mount under the desk with smart, quick-release brackets.

Flexible monitor arm mounting: Attach to the rear tabletop or the open gap – cables route easily to the baskets.

Stable construction: High-quality metal frame with discreet, rounded legs.

Optional full-surface mouse pad: Covers the entire main surface for the classic Arozzi Arena experience.

Four modern finishes: Dark Walnut, Bright Birch, Pure White, and Pure Black.

Features

Electric height adjustment

With a height adjustment range of 71 – 115 cm, the desk is powered by a strong motor, making it easy to switch between sitting and standing positions. Thanks to four programmable memory settings, you can quickly return to your preferred height. Perfect for families, shared offices, or work environments where multiple people use the same desk. The built-in LED display shows the exact height in centimetres, giving you full control over your working position.

Adjustable Split Tabletop for Monitor Arms & Cables

A unique feature of the Arena Nordico is its split tabletop, where the rear section (12 cm deep) can slide apart from the main surface. This function allows for flexible monitor installation and optimized cable routing, while you decide the width of the gap (0 – 4,2 cm) using three thumb screws on the underside.

Hidden Cable Baskets for a Clean Setup

Two sturdy metal cable baskets are included, which are easily mounted into specially designed quick-release brackets under the desk, one on each side, giving you efficient cable management without disrupting the desk's clean design. Whether you mount monitor arms on the rear tabletop or in the open gap, the cables are neatly routed down into the baskets.

Optional Full-Surface Mouse Pad

The Nordico Full Surface Mouse Pad is available as an optional add-on, providing a smooth and consistent surface for precise mouse control. It's machine-washable, water-resistant, and built to handle everyday work, gaming, or creative tasks. Durable and practical, it's a simple and reliable upgrade to any desk setup.
